<TEXT> I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. Under the flat fee proposal, low-volume and primarily residential customers would bear the same Universal Service Fund burden as high-volume residential or business customers. This is unfair!

I use my wireless phone only for safety and security, carrying it in case of car trouble and using it less than fifteen minutes yearly. I already have to buy far more airtime than I use; I don't want to pay a disproportionate USF charge in addition, and I don't want to lose this safety feature so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Michael Zelenski
